

# Feng Chia University Guidelines for Scholarships/Financial Aid for Overseas Chinese and International Students

(These guidelines are applicable to first year students enrolled in the 2016 academic year)

Adopted during an administrative affairs meeting on 2010/12/22  
Ratified by the University president on 2010/12/31  
Adopted during an administrative affairs meeting on 2012/10/03  
Ratified by the University president and promulgated on 2012/11/15  
Adopted during an administrative affairs meeting on 2013/10/09  
Ratified by the University president and promulgated on 2013/10/24  
Adopted during an administrative affairs meeting on 2014/04/02  
Ratified by the University president and promulgated on 2014/04/16  
Adopted during an administrative affairs meeting on 2015/10/07  
Ratified by the University president and promulgated on 2015/10/20  
Adopted during an administrative affairs meeting on 2015/12/30  
Ratified by the University president and promulgated on 2016/01/08

Article 1: These guidelines were formulated to encourage and assist outstanding overseas Chinese and international students to enroll at Feng Chia University (hereafter referred to as 'FCU').

Article 2: "Overseas Chinese students" are defined as overseas Chinese students and students from Hong Kong and Macau who have been granted admission to an undergraduate, master's or doctoral degree program at FCU by the University Entrance Committee for Overseas Chinese Students, as well as overseas Chinese students that were directly recruited by FCU. Overseas Chinese student status shall be established by the Overseas Compatriot Affairs Commission. Hong Kong and Macau student status shall be established by the Ministry of Education.

International students are defined in accordance with Articles 2 and 3 of the Ministry of Education's Regulations Regarding International Students Undertaking Studies in Taiwan.

Article 3: This scholarship/financial aid scheme is offered to overseas Chinese and international students for up to four academic years for undergraduate degree programs (up to five academic years for those enrolled in five-year undergraduate degree programs) and up to two academic years for master's degree and doctoral degree programs.

Article 4: Scholarship/Financial Aid Types, Decisions, and Issuance are as follows:

Three types of scholarships/financial aid are provided: admission awards, scholarships, and continuation of financial aid. The Office of Academic Affairs, Office of Student Affairs, Office of International Affairs, colleges and other related units shall form a scholarship application review committee to review scholarship applications. The number of recipients and amounts awarded shall be determined according to the annual budget. Scholarship decisions shall be announced each semester before the registration deadline.

Scholarships/financial aid are categorized as the full amount of tuition and miscellaneous expenses or half the amount of tuition and miscellaneous expenses. The full or half scholarship amount that is awarded for a department, graduate institute, or degree program (see attached form for details) is determined by each year's tuition fees for overseas Chinese students, Hong Kong or Macau students, and international students. Scholarships/financial aid are issued in two installments, one per semester, and are deposited directly into the recipient's bank account in March and October.

Article 5: Application Procedures are as follows:

Once overseas Chinese students have been accepted for admission by the University Entrance Committee for Overseas Chinese Students, or recruited directly by FCU, they shall submit an admission award/scholarship application form to the Office of Academic Affairs. From the second academic year, applications for a continuation of financial aid shall be submitted to the Office of Academic Affairs before the announced deadline.

International students shall submit an admission award/scholarship application in conjunction with the application for admission to the Office of Academic Affairs. From the second academic year, applications for a continuation of financial aid shall be submitted to the Office of Academic Affairs before the announced deadline.

Article 6: Admission award/scholarship application criteria for the first academic year are as follows:

- A. For overseas Chinese students admitted to undergraduate degree programs and applying for admission awards/scholarships, scholarship decisions for the first academic year shall be decided based on grades achieved for the academic year prior to admission by the University Entrance Committee for Overseas Chinese Students; first year scholarship decisions for students directly recruited by FCU shall be decided based on grades achieved in previous program(s) for the academic year prior to admission. For master's and doctoral degree students applying for admission awards/scholarships for the first academic year, scholarship decisions will be based on grades achieved in previous program(s) and other supplemental documents that indicate the student's potential.
- B. For international students admitted to undergraduate, master's or doctoral degree programs and applying for admission awards/scholarships, scholarship decisions for the first academic year shall be based on grades achieved in previous program(s) and other supplemental documents that indicate the student's potential.

Application criteria for a continuation of financial aid are as follows:

- A. Overseas Chinese students enrolled in undergraduate programs shall have earned an average score of seventy or higher in courses during the previous academic year and a ranking in the top fifty percent of their class, as well as a conduct score of eighty or higher. Overseas Chinese students enrolled in master's or doctoral degree programs shall have earned an average score of eighty or higher in courses and a conduct score of eighty or higher during the

previous academic year.

- B. International students enrolled in undergraduate programs shall have earned an average score of sixty-five or higher in courses during the previous academic year and a ranking in the top sixty percent of their class, as well as a conduct score of eighty or higher. International students enrolled in master's or doctoral degree programs shall have earned an average score of seventy-five or higher in courses and a conduct score of eighty or higher during the previous academic year.

For the aforementioned items, master's and PhD students applying for a continuation of financial aid should include other materials that are beneficial to the application procedures.

Article 7: Students who meet the aforementioned scholarship application criteria for the first academic year may submit an application for an admission award/scholarship. Following a decision by the scholarship application review committee, scholarships/financial aid will be issued to recipients who have completed registration and course selection procedures for the academic year for which the scholarship/financial aid is awarded.

Students who meet the aforementioned scholarship application criteria for admission award/scholarship or continuation of financial aid may submit an application for scholarship/financial aid. Following a decision by the scholarship application review committee, scholarships/financial aid will be issued to recipients who have completed registration and course selection procedures for the academic year for which the scholarship/financial aid is awarded.

For students applying to transfer into a new department, graduate institute, or degree program, the amount of awarded scholarship/financial aid shall be calculated in accordance with funds actually awarded by the new department, graduate institute, or degree program.

Article 8: International students desiring to apply for this scholarship/financial aid scheme shall first apply for the Taiwan Scholarship offered by the Taiwan government through the Taiwan overseas mission or representative office in their country of origin (unless the Taiwan Scholarship is not offered in that country). If it is not possible to receive or apply for the Taiwan Scholarship, students may apply for this scholarship/financial aid if they meet the requirements. International students who have received the Taiwan Scholarship may not apply for this scholarship/financial aid.

Article 8-1: In accordance with the Feng Chia University Implementation Guidelines for Part-time Student Teaching Assistants or the Feng Chia University Guidelines for Part-time Student Research Assistants and Temporary Project Managers, the college will offer relevant teaching, research, or service opportunities to students who receive scholarships/financial aid. Each college will use their own procedures to enforce the scholarship/financial aid rules.

Article 9: For students who meet the criteria for this scholarship/financial aid but have not completed registration procedures or applied for admission deferral or

pre-enrollment leave for the academic year in which they are to receive the scholarship/financial aid, the scholarship/financial aid decision shall be revoked. Students who apply for leave following enrollment will not be allowed to continue to receive scholarship funds from the starting date of the approved leave period. Students returning to FCU following an approved leave forfeit scholarship/financial aid eligibility and may not re-apply for this scholarship/financial aid.

Article 10: If it is found that a scholarship/financial aid recipient has falsified any information on his/her scholarship/financial aid application, the scholarship/financial aid decision shall be revoked. Any scholarship funds received by the recipient shall be returned.

Article 11: These guidelines were adopted during an administrative affairs meeting, ratified by the president of FCU, and promulgated. Revisions shall be handled in the same manner.

Article 12: In the event that the meaning, connotation, or interpretation expressed in these English-language guidelines differ from the original Chinese-language version, the Chinese-language version shall be taken to be correct and true.
